attaboy[®]active

In this collection of products you will find performance accessories for athletic activities. Attaboy[®]Active products use a **NEW** soft shell ACTIVE fleece material that is flexible, comfortable and durable.

Select Attaboy[®]Active styles are designed with ODOR-XCHANGE[™] anti-microbial scent inhibiting lining - This lining inhibits the bacteria that emit odors, while allowing excess heat and moisture vapors to escape. ODOR-X[™] provides enhanced scent suppression for added performance while being active.
